THE SUPER 3 BUSHEL P.T.O. SPREADER

**MODEL S3B P.T.O. IS A SUPER
3 BUSHEL SPREADER
THAT WILL GIVE YOU
COMPLETE COVERAGE
UP TO 30 FEET WIDE**

Maximum width of spread depends on the density of the material being spread. The S3B will spread a wide range of materials, seeds, fertilizers, granular herbicides and ice melters. (Not Sand) The spreader includes a comprehensive spreading chart for various materials. This spreader is easy to clean and is mounted low for easy filling. A heavy duty 42 inch flexible shaft With a P.T.O. coupling powers the spinner.

The S3B comes standard with 3-point hitch mounting for category 1 tractors. Brace rods are available for drawbar mounting. The hopper is welded galvanized steel and includes a hinged lid to keep material dry. The frame of the spreader is heavy duty steel that supports the hopper. The S3B utilizes a vibrating rate gate and a spinning agitator for constant material flow. The hopper holds 3 bushels or 200 lbs. of most material. The optional hopper extension holds 2 additional bushels or 150 lbs. Lid available for hopper extension. (DO NOT MOUNT THIS SPREADER TO A LAWN TRACTOR, GARDEN TRACTOR OR ALL TERRAIN VEHICLE (ATV) DUE TO SIZE OF SEEDER.
