Grapple Rake Attachment

Ideal for loading logs, picking up rocks, orchard prunings and piling brush and other hard to handle materials.

Worksaver®

Grapple Rake for Skid Steer and Front Loader

- Ideal for loading logs, picking up rocks, orchard prunings, raking and piling brush and other hard to handle materials.
- Unique tine design with replaceable weld-on tine points.
- Tine points allow operator to go under logs and brush to completely pick them up.
- Design allows brush and other materials to be picked up while leaving the dirt.
- Great for picking up / piling cut trees and treetops when clearing land.
- Size compatible with the lift capacity of most machines.
- Good forward visibility for easy control in close quarters for increased productivity.
- Simple efficient design with few moving parts for long life.
- Skid Steer model use ‘Universal Attaching’ system to provide the operator with quick convenient method of installation.
- Tractor front loader model comes standard with pin type (1-inch) mounting channels. Optional quick attach mounting brackets are available for most popular quick attach bucket mountings.
