Moldboard Plow

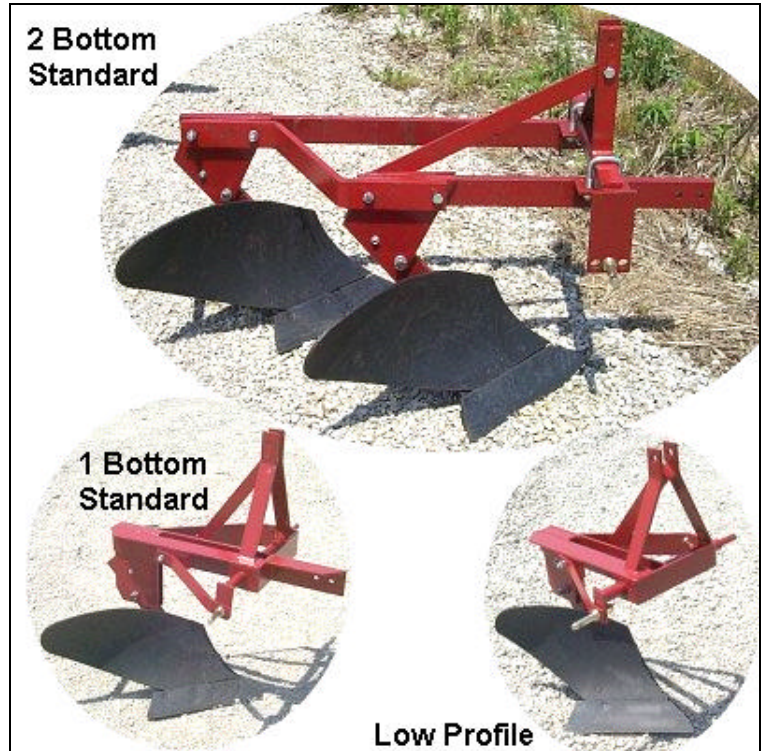

Worksaver 1 and 2 bottom moldboard plows provide excellent soil tillage for small and hobby farms. Each plow has shear-bolt protection to protect the unit from underground objects.

The “Low Profile” 1-bottom plow is designed for small tractors having low profile configurations. Coulters and trashboards are not available.

The One bottom plow fits standard size tractors with Cat. I hitch.

The ONE and TWO bottom 14” standard size plows are offered with optional 15” coulters to cut through trash and optional trashboards to assist in covering trash residue.

Optional coulters and trashboards may be added to the appropriate models.

Item No.	Description	Lbs.
